

Contribution to the knowledge of Norwegian Coleoptera

Stefan Olberg & Johan Andersen

Olberg, S. & Andersen, J. 2003. Contribution to the knowledge of Norwegian Coleoptera. *Norw. J. Entomol.* 50, 131-136.

Microlestes minutulus (Goeze, 1777), *Gyrophaena joyioides* Wüsthoff, 1937 and *Isorhipis marmottani* Bonvouloir, 1871 are reported for the first time in Norway. *Bledius crassicornis* Lacordaire, 1835 is replaced by *Bledius occidentalis* Bondroit, 1907. New provincial records are reported for 12 rare species. Some faunistic and autecological aspects are briefly discussed.

Key words: Coleoptera, distribution, Norway.
